

A year-round atmosphere
of enjoyment in the conservatory.

With WAREMA sun shading systems

Der SonnenLichtManager

A man and a woman are smiling and looking towards the camera. The man is wearing a light blue polo shirt and holding a glass of orange juice. The woman is wearing a white top and has a wide, joyful smile. They appear to be in a bright, airy conservatory or sunroom with large windows in the background.

Create your own
Enjoyment Space!

Do you want to be able to spend the whole year relaxing in your conservatory and enjoying the view of nature?

With sun shading systems from WAREMA you can enjoy yourself all the time, while being, when necessary, perfectly protected from the sun. Depending on your requirements, we offer optimal sun shading, visual privacy and glare control – whether for classic conservatories or individual architectural solutions with large glass surfaces. Thanks to the variety of design models, colours and many extras, you can design your sun shading system to perfectly fulfil your wishes.

Transform your conservatory into an oasis of enjoyment with WAREMA!

Relaxation and comfort included: sun shading systems for conservatories

Enjoy the four seasons in your conservatory. While effectively keeping the heat out during summer, you can spoil yourself with warming sunrays in the winter. Depending on your requirements, the awnings can be installed on or under the glass. Our conservatory awnings can also be superbly combined with Solarlux patio roofs. Whatever your wishes, the perfect climate is guaranteed.

► WMS – WAREMA Mobile System

The intelligent WMS control system allows you to control the sun shading system easily and according to your own preferences using a hand-held transmitter or even a smartphone or other smart device.

Elegance meets functionality:
sun shading systems
for window surfaces

Emphasise the architecture of your house and create special optical accents. With our perfectly integrable sun shading systems in the facade for large window surfaces. External venetian blinds provide a perfect light ambiance in your conservatory with their adjustable slats. Our window awnings with ZIP guidance will delight you. Thanks to the curtain's lateral guidance by means of a zipper system, they guarantee a wind-stable sun shading system.

► **Insect screen and pollen protection**

Whether as a sash or swivel frame: keep troublesome pests out of your conservatory with the integrable insect screen and pollen protection.

► **secudrive®**

The tight guidance of the curtain ensures optimal wind stability and prevents unwanted light gaps at the side.

Individuality right up to the details:
special solutions

Do you place great value on individuality? At WAREMA, you will find a custom solution for every ambitious shading project. Whether with large glass fronts, vertical or horizontal surfaces, asymmetric shapes or tucked-away corners, we design lively spaces for you to enjoy yourself. Because we stand for SunLight Management in perfection.

► **Internal sun shading systems**

Whether for roller blinds, pleated blinds, vertical and internal venetian blinds or curtain panels, select the colour and design of your sun shading system and design your conservatory interior as you wish.
